The Fairness Formula: Equal Funding for Every Child, Our Path to Lower Property Taxes

Join Governor Christie's [Fairness Formula](#) solution to New Jersey's two most pressing crises that are hurting all New Jerseyans: the failure of urban education and property taxes. The Governor's monumental Fairness Formula will provide equal education funding for every pupil throughout the state, valuing every child equally.

75% of all New Jersey districts would get more state aid than they do today. The biggest driver of New Jersey's nation-high property taxes is the ineffective and unfair state school funding formula. The Fairness Formula will not only be equal for students it may also provide hundreds or even thousands of dollars in annual property tax savings for New Jerseyans in most communities.
