

# COVID-19 TEST TO TREAT

IF YOU ARE AT HIGH RISK OF GETTING VERY SICK FROM COVID-19, AND TEST POSITIVE, TREATMENT MAY BE AVAILABLE.

Get tested for COVID-19 at a Test to Treat site or bring your test results from an at-home test, a pharmacy, or your health care provider with you to your visit.

Get a prescription from an on-site healthcare provider if you are at high risk of getting very sick.

Ask the on-site or affiliated pharmacist to fill the prescription. Once your prescription has been filled, you can take your oral antiviral pills with you to begin treatment!

You can use the web-based Test to Treat locator to find a participating Test to Treat site near you.
