

BOROUGH OF
NEW PROVIDENCE

SETTLED IN 1720

Al Morgan, Mayor

Wendi B. Barry, Borough Clerk

Douglas R. Marvin, Borough Administrator

May 24, 2019

Grove Terrace Neighbors

Dear _____ ;

The Borough of New Providence is planning to perform maintenance and minor improvements to the Grove Terrace Field in 2019.

We have engaged our engineer, Andrew Hipolit, PE of Maser Consulting to assist with the design of the improvements and the management of the construction project.

The improvements will include minor grading work, removing the existing grass field, installation of an irrigation system and installation of new natural sod and clay infield. The fencing will be reviewed to determine if any improvements are needed. We expect that a natural barrier (rocks, trees, etc.) will be used to prevent vehicles from driving onto the playing surface.

The project will not change the use of the field and will not expand beyond the current footprint. No lights will be installed.

We will host a meeting of neighbors on Wednesday, June 12, 2019 at 7:30 PM in the New Providence Council Chambers to review the plans and answer any questions.

We look forward to seeing you then.

Kind regards,

Douglas R. Marvin
Borough Administrator
