Re: VFD Replacement

Date: March 14, 2012

The attached quotes are for the replacement of two (2) Variable frequency Drives (VFD's) at the plant. We will be replacing one (1) Summit Pump - 200 H.P. Drive and (1) Constantine - 40 H.P. drive. I received quotes from Amjet Enterprises, Dynamic Tele/Net Infrastructure and Horizon Industries Inc. for the installation of these drives. Horizon Industries provided the lowest quote for seventeen Thousand two hundred and fifty dollars (\$17,250.00).

When the above-mentioned job is complete there will be three (3) remaining VFD drives to replace. Funds for this project are available in the departments Capital Account -15-259-930-3-40040. Please notify me when approval for this project is complete so I may contact Horizon Industries and schedule for this project to commence. If you have any other questions regarding this matter, please contact me.

Sincerely,

Reference: Replacement of Existing Square D
Altivar VFD Motor Drives

Gentlemen:

Horizon Industries Inc. would like to first take this opportunity to thank the **New Providence Waste Water Treatment Plant** for allowing our firm this opportunity to quote your facility on the installation of new Square D VFD motor drives.

As requested by your office, our firm has developed a quotation to provide two (2) new Square D Altivar VFD motor drives.

The two (2) Square D Altivar drives to be replaced will be one (1) 200 HP unit and one (1) 40 HP unit at your New Providence Waste Water Treatment Plant..

Each VFD Drive replacement would include the following:

- New Square D Altivar 61 Series VFD Drive
- VFD Drive to include LCD Graphic Display Terminal
- Computerized Extension Input/Output Optional Card VW3A3202 –TV71
- Altivar Fan Kit
- Additional Power Relays required for this conversion.
- Additional DC Power Pack Components required for this conversion.
- Labor to Remove the existing old Square D Altivar 55 Series VFD Drive
- Labor to Install new Square D Altivar Drive
- All electrical wiring and misc. mounting hardware included for new drive installation.
- Square D Altivar factory testing and startup services included for each drive
- Extended Factory Warrantee to 18 months
- Includes Freight to New Providence WWTP

The VFD Drives are all sized for 3 phase, 60 cycle, 460 volts with a standard Altivar enclosure.

Horizon Industries Inc. quotation will provide and replace two (2) Square D Altivar drives with the latest series Altivar drive.

As per your instructions, the two (2) new VFD drives will be scheduled and replaced at the same time and will include factory start up services.

The sizes and model numbers are as follows:

Size/Horsepower – 40 HP quantity one (1) Altivar ATV61HD30N4 Drive
Size/Horsepower – 200 HP quantity one (1) Altivar ATV61HC13N4D Drive

The total installed price for the above two (2) Square D Altivar VFD drives including all labor and materials would be:

One (1) 40 HP VFD – \$ 5900.00
One (1) 200 HP VFD - \$ 11350.00

The Total Cost would be: \$ 17250.00

Terms are net 30 days. Sales Tax Exempt – Price firm for 30 days

Delivery of the above units is about 4 weeks after approval and order release.

Thank you for considering our firm for attending to your electrical VFD needs. We look forward to working with you on this project and those in the future.

Please contact us if you should have any question, comments, concerns or if we me be of any other assistance to you.

Best regards,

Horizon Industries Inc.

Reference: Replacement of Square D Altivar VFD Drives

Gentlemen:

Our firm is pleased to provide the Borough of New Providence with a quotation to replace two (2) Square D Altivar VFD drives at your Treatment Plant facility.

The existing Altivar 55 VFD drives will be replaced with the generation of Altivar VFD Drives - Model 61 Series VFD drives.

The Borough is interested in replacing two (2) existing drives at your plant. The drives to be replace include a 40 horsepower and a 200 horsepower Altivar drive.

The replacement of each drive will include:

- a. Remove the old 55 drive
- b. Install a new Altivar 61 series drive.
- c. All drives include a new input/output drive card.
- d. All new control relays, bases, wiring and DC power packs are include.
- e. The quoted price includes extended factory warrantee to 18 months.
- f. The quoted price includes factory startup.
- g. Our quoted price includes all required labor to remove and install drives.

The delivery on the drives is about 5 to 6 weeks after submittal approval is provided to our firm.

The total price to replace the two (2) Square D Altivar VFD drives as outlined above would be \$ 19670.00. Sales Tax Exempt.

All quoted prices are NJ Sales Tax Exempt and include freight charges delivering the drives to the New Providence Waste Water Treatment Plant.

Our firm thanks you for this opportunity to serving the New Providence Waste Water Treatment Plant.

If you should have any questions please contact our office.

Sincerely,
Andrew Chop

Attention: Mr. Anthony Carnevale
Chief Operating Engineer

Reference: Replacement of Square D
Altivar Series 55 Drives

Gentlemen:

We are pleased to offer the following proposal for the replacement of two (2) existing Square D Altivar Series 55 VFD drives at your Waste Water Treatment Plant.

Your existing Altivar Series 55 drives have been upgraded with a newer current model Altivar drive - the 61 series.

The Series 61 is a new Altivar VFD and is a direct replacement of the older 55 series Altivar drive.

As per your instructions, two (2) of the older 55 series Altivar drives are to be replaced.

The scheduled horsepower replacements include one (1) 200 HP VFD Motor Controller and one (1) 40 HP VFD Motor Controller. Both VFD drives are 3 phase, 60 cycle, 460 volts.

Each drive will be replaced as follows:

1. The old series 55 Altivar drive will be removed.
2. The new Altivar 61 series drive will be installed
3. Each drive to have new input/output optional card.

4. All control relays and DC power components are included.
5. Includes extended factory warrantee to 18 months.
6. Includes Square D factory startup.
7. Includes all labor to remove and install drives.

Once approval is provided by New Providence, our firm will develop a complete set of drive submittals which will be provided to your office.

After review and approval delivery of the drives is about 4 to 6 weeks.

This proposal is based on the replacement of both drives at the same time.

The total price for the one (1) 200 HP and one (1) 40 HP Square D Altivar VFD drive would be:

*** 20440.00***

Twenty Thousand Four Hundred Forty Dollars

Terms net 30 days.

All prices are NJ Sales Tax Exempt and include freight costs to the project New Providence WWTP site.

Thank you for allowing our firm this opportunity to serve the New Providence Waste Water Treatment Plant.

If you should have any questions concerning our firm's proposal please contact our office.

Best regards,

Bret Diaz
