Project description and summary (you may attach additional pages):

**PROJECT: Municipal Recreation Complex Walking/Running Path**

**Overview**

*The Borough of New Providence has always placed a high value on our parks and recreation facilities. The past six months of the coronavirus crisis has shed an even bigger light on the essential role that local parks and recreation plays in the social/emotional well-being of our children and residents. During the ongoing COVID-19 pandemic, New Providence has seen a record number of residents using our parks and trails for passive recreation activities.*

*The municipal recreation complex, located at 1400 Springfield Avenue, adjacent to the New Providence Community Pool, is home to the Borough’s eight lighted tennis courts, community garden, municipal basketball courts, a small field and a walking path. Over the years, sections of the half mile walking path have become a safety hazard due to tree roots growing through the asphalt and various parts of the path crumbling due to normal wear.*

**Project and Goal**

*The Community Activities Department along with Borough Council is seeking grant money to remove and replace the .5 mile long walking path that surrounds the recreation complex making it wider and more user friendly. The addition of mile markers, lighting and benches will enable users to be able to enjoy the park casually throughout the day/early evening.*

*The intention is to complete this project by Spring/Summer 2021.*

**Cost Estimates**

- *4"x4"x7' Bi-Color Routed Posts (4-sided) (Quote Attached) \$ 1,416.00*
- *UltraSite – 6' Charleston Bench w/o back (Quote Attached) \$ 7,827.85*
- *Landscape lighting, electrical work and paving are estimated by the Borough engineers \$140,000.00*
  
- ***Project Total \$149,243.85***

**Conclusion**

*Over the past few years, the Borough of New Providence has successfully improved recreational facilities, in particular those used by children. The Kids Recreation Trust Fund has been helpful in supporting and funding many of those changes. We feel strongly that a grant in the amount of \$74,621.93 would facilitate our goals of supporting the growing needs of users in our parks.*

# A low profile entrance, wayfinding and regulatory solution

Structural grade recycled plastic lumber posts.

Reinforced with fiberglass. Resistant to UV and harsh weather.

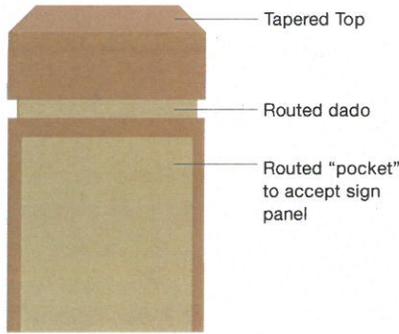

### Solid Color Post with Panel Insert(s)

Tapered top, routed dado and routed pocket to accept a TUFF panel insert on one, two, three or all four post sides.

TUFF panel insert is mechanically fastened in the routed pocket and can be customized to include information such as a park / trail name, agency or park district name, contact information, SEGD national recreational symbols, prohibitive symbols, mile markers and directional arrows. A printed panel insert provides broad design flexibility.

Available in 4"x4" (true), and 5.5"x5.5" (actual) at a suggested length of 7'. Clients are encouraged to provide a rough sketch with desired content for each sign panel insert version to serve as a resource during the design process. Standard post color is cedar. Additional colors and sizes available by special order.
